10.30 am for 11 am start - to 4.00 pm Free

Thursday October 15th 2015

Introduction

This one day workshop will focus on the important issues about delivering your Big Local Plan, how to take projects forward, what you need to think about and have in place to get started.

Why is it important?

Many Big Local areas have recently had a Plan approved and are now at the stage of starting delivery but it is important to think about how to deliver the plan effectively, how to plan ahead, how to manage the process and what the options are about how you work with delivery partners so that you can get started quickly.

Agenda

The workshop will cover issues including:

- Should we adopt commissioning or tendering approach, or do it 'in house' ?
- How do we write a tender or commissioning document?
- How do we get matching funding?
- What stages do projects often go through?
- How do we measure their success?
- What additional support might we need?
- What approaches have other Big Local areas adopted?

The format will include

Speakers - Workshop sessions - Discussion -

Meeting other Big Local residents tackling the same issues

Supporting you to attend

The event is free for anyone who lives or works in a Big Local area and we will provide lunch. We also provide financial support for travel, childcare and other care costs to residents in Big Local areas.

If you are attending a Big Local event as part of your paid work/employment then we ask that your employer cover your expenses. However, we can pay or contribute towards worker's expenses in exceptional circumstances. Please ask when booking for further information.
